## Smith's Statement.

Henry Smith Exonerates Calvin Says He was "Sweated" by the Police and Compelled to Endure Hunger Until He Repeated Words Put in His Mouth by

Officers. Officers.

The time has come when the community should be relieved of the suspense which it has endured since last degree for participation in the killing of Walter L. Schultz, had made a statement. The authorities, for reasons which to them seemed best, refused to divalge the nature of this statement, and as the news concerning the story spread all sorts of constructions were placed upon it. While the disclosures made by Smith are startling, they are, in the main, the opposite from what most people had supposed. It was naturally believed that he had given the details of the murder, had implicated others, acknowledged the part he played in the crime and corroborated, at least, most of the assertions he made on the stand in the Corporation Court in regard to the complicity of Johnson, absolutely exonerates the three men, especially the first-named, and says he happened to see Johnson on the night of March 6 and after his arrest concluded he would implicate him in the crime. good game but were outclassed at parts Police Court and subsequently in the oi the game by the Liceumites. Corporation Court which resulted in the sentencing to death of the convicted men, he laid the odium upon Chief Goods and Officer Sampson, and charges them with putting the words in his mouth in order that they might establish a record for running down murderers. He also eays

K Field. ealis.

In an interview yesterday with Mr. B. D. Brumback, one of his counsel, he told the latter that no one would become acquainted with the true facts in connection with the Schultz murder until be (Smith) shall have been placed in the electric chair.

In consideration of the facts given above, Judge Birley and Commonwealth's Attorney Brent early last night communicated with Governor Swanson by telephone, and, at their request, the governor re-pited Johnson, Pines and Dorsey, who were to have been electrocuted next Friday, for sixty days.

Reference is made above to the statement made by Smith to Mr. B umback "I desire to state that the confession

made by me in the three trials of Calvin Johnson, Richard Pines and Eugene Dorsey was false and on rue; that if they had anything to do with the commission of the murder of Schuliz I know absolately nothing about it. The reason I want to make this statement is I do not want innocent men to sufferer by reason of any story told by me. I had always intended to deny this confession had l been acquitted. That was the reason I wanted the judge to sentence me at once so I could tell the truth before Johnson, Pines and Dorsey were executed. I also want to say that this story was made by Ohief Goods, Officer Sampson and myself. Ohief Goods mentioned the names of Pines and Dorsey and I suggested Johnson's name. God knows I am innocent of this crime. I know absolutely nothing about this murder. Had I murdered Schultz I certainly would have gotton all his money and gone away. To show that I knew nothing about the commission of the crime, I told Ohief Goods at the first trial I could not locate the spot nor the position of Schultz's body. I didn't know which direction his head or his feet were pointed, and then he told me he would put a stick in the ground while I was in jail before the

trial came off. He placed the stick so that the big end would indicate the direction of the bead and the small end the feet. Officer Sampson told me when we were again out on the ground in the trial of Johnson to watch the chief and the way he goes over the fences. He notified me while I was in jail that a new fence had been put in there, and I was told by him to act when I reached that fence as though I did not know it was there, and was also told by him as he walked by my side while going another time to the spot to act as though I could not locate the place and afterwards to find it. Mr. Sampson came to the cell up stairs where I was concealed while in the police police station and said there was very little blood found on the ground where Schultz's body was found. Then I made up the story about the rage having been tied tightly around Schultz's neck when he was murdered, and Mr. Sampson got the rags and put them there so that they could be found. During all the trials Chief Goods sat behind me, and Mr. Brent gave me the signs when Mr. Machen asked me questions whether I should answer or not by winking his eyes. I was told to say they did not try an overcost on me, when they did. Mr. Sampson handled me all the time during
